OCHO RIOS

Ocho Rios is one of the premier tourist destinations in the Caribbean. Located on the north coast of the island of Jamaica, it boasts the famous Dunn's River Falls, Green Grotto Caves, some of the best beaches in the world and excellent shopping in the town center and next door is great food and party at Margaritaville. There are colonial-period buildings like the Geddes Memorial Church and the Anglican Church. Rio Nuevo is the site of the 1658 clash between Spanish and English troops over possession of the island. If you are wondering, the British won. There is something for every vacationer. Come and see...

This is only the beginning. We intend to add other destinations and accommodations soon. See our brochure for more details on Fisherman's Point.
